## House Of Coffee - coffee machine, coffee vending machine, Melbourne, Australia

*The House Of Coffee*

### Premium Coffee Pods

Pod brewing is one of the newest and most efficient ways to brew coffee. Using individually wrapped pre-measured pods, carefully sealed to retain freshness, you brew one cup at a time directly into your cup, choosing the strength and amount you prefer. No fuss, no measuring. It's ideal for serving different coffee blends or flavors, for serving fresh-brewed coffee. Our premium ground coffees are in neat pre-measured pods that fit our Spinel pod machines. Available in a 150 pods per box.
